Stoma Product Guide

Shaping lives with complete stoma products, care and support

convatec

amcare
group

Together, We Can Help Shape Lives

Innovation begins by listening and working together.

Convatec is a global medical products and technologies company focused on therapies for the management of chronic conditions. Our portfolio of stoma products, the me+™ patient support programme and collaboration with healthcare professionals help to improve the lives of the people we touch.

A Guide to Hydrocolloids

STOMAHESIVE®

Designed for frequent removal whilst maintaining skin integrity, our unique Stomahesive® technology is a hydrocolloid adhesive that gently adheres to the skin, protecting it from the damaging effects of stoma effluent.

We also offer a **modified Stomahesive®** option, which features a touch of mineral oil that makes the baseplate more flexible during wear, and removal easier on the skin.

DESIGNED FOR PATIENTS

- WITH ALL OUTPUT TYPES
- WHO HAVE SENSITIVE SKIN
- WITH FREQUENT CHANGES

DURAHESIVE®

Designed for a longer wear time, our unique Durahesive® technology is a hydrocolloid adhesive that swells up upon hydration to protect the stoma. This special effect called turtlenecking, helps create a more secure seal without harming the skin.

DESIGNED FOR PATIENTS

- WITH SEMI-LIQUID/LIQUID OUTPUT, INCLUDING URINE
- EXTENDED WEAR TIME
- HELPS MAINTAIN SKIN INTEGRITY

ESTEEM™ + SOFT & FLEX CONVEX

Adhesive designed with a high initial tack, to aid in the initial attachment to the skin. The hydrocolloid barrier features a thin tapered edge to help improve flexibility and comfort, and a thicker centre to help absorption around the stoma.

DESIGNED FOR PATIENTS

- WITH BOTH SOLID AND LIQUID OUTPUT

Unique, Mouldable Technology™ - secure, soft and shaped to fit

When your patients use a Convatec Mouldable Technology™ baseplate, they don't have to worry about gaps and a secure seal - our patented technology takes care of that. In a clinical study, our Mouldable baseplates were proven to shield the skin and prevent complications around the stoma¹.

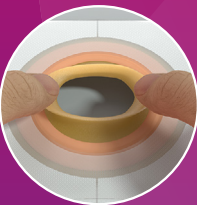

95%
of people who started with a Convatec Mouldable Baseplate kept their skin healthy¹.

86%
of people who switched to a Convatec Mouldable Baseplate improved their peristomal skin condition¹.

Esteem™+ with Convatec Mouldable Technology™

Premium line of 1-piece stoma systems in closed and drainable options.

STEP 1: ROLL BACK

STEP 2: APPLY BASEPLATE

STEP 3: REBOUNDS & RETURNS

STEP 4: LEAK-LOCK™ ACTIVATED

The characteristics of convexity

RIGIDITY

Soft Convex

Typically used on any abdomen type.

Flex Convex

Typically used on skin folds and creases.

Firm Convex

Typically used on soft or flaccid abdomen.

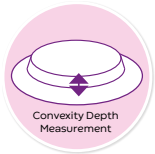

DEPTH

Height of the convex plateau.

Shallow: 4mm

Deep: 7mm

Rigid: 5mm

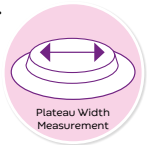

PLATEAU WIDTH

Distance across the widest flat part of the outward convex curve.

Successful convexity should support the stoma and peristomal skin to achieve a good seal around the stoma.

Convexity Support: A narrow plateau may be used to create support directly around the stoma.

Plateau Width: A wider plateau width may be used to flatten out skin creases away from the stoma.

Plateau Width Guidance for Esteem™+ Flex and Soft Convex

The **easy** app for nurses that makes stoma care **easier**.

As a stoma care nurse your job is tough enough, so we created the **Ostomy Nurse Solutions App** to make your life easier. No matter what task you want to do, it's all in one place, and all just a few easy taps away.

Choosing the right products has never been easier. Our step-by-step **product selector** helps you find the best products for your patients by answering a few easy questions. You can also save your favourite products for easy access in future, and **ship samples** straight to your patient's door.

Use the app to **discharge patients quickly**, knowing everything they need will be shipped straight to them. It's all handled by Amcare's prescription delivery service, saving you time and storage space.

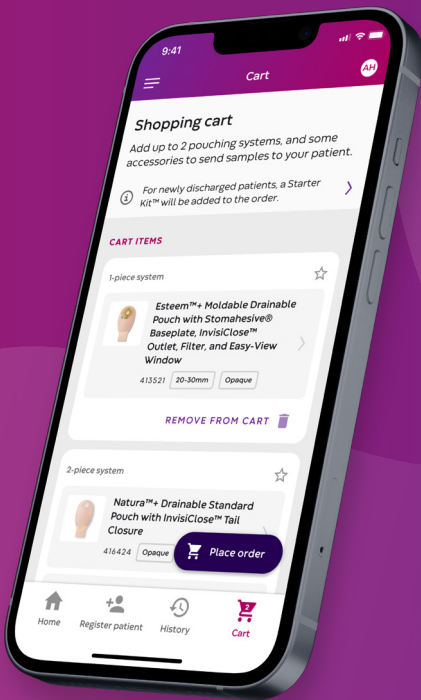

You can easily register your patients with the **me+™ patient support programme**, and all the benefits it offers. All it takes is a few taps. You can also request specialist stoma nurse and counselling appointments for your patients, and connect with Amcare stoma nurses and Product Specialists whenever you need professional **advice or support**.

KEY FEATURES

✔ **Select the right products**
with our step-by-step product selector or use our quick and easy search.

✔ **Discharge patients**
quickly and with the supplies they need delivered directly to their door.

✔ **Send samples**
straight to your patient's door, in just a few easy taps.

...and much more

✔ **Register patients with Amcare™**
for our rapid, no-hassle prescription delivery service and stoma support.

✔ **Register patients with me+™**
to access a community of stoma support and advice.

✔ **Access 24/7**
with your personal login and secure access, even when you're offline.

TWO-PIECE SOLUTIONS

Our Natura® baseplates were designed to give people the security to stay in control of their stomas every day so people can live life on their terms.

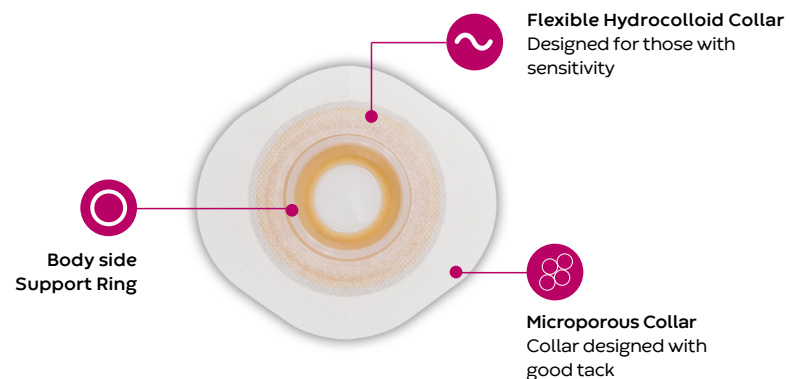

NATURA® Cut-to-fit baseplate

Allows the user to fully customise the size of the aperture.

NATURA® Pre-cut baseplate

Circular apertures pre-cut to specific incremental sizes.

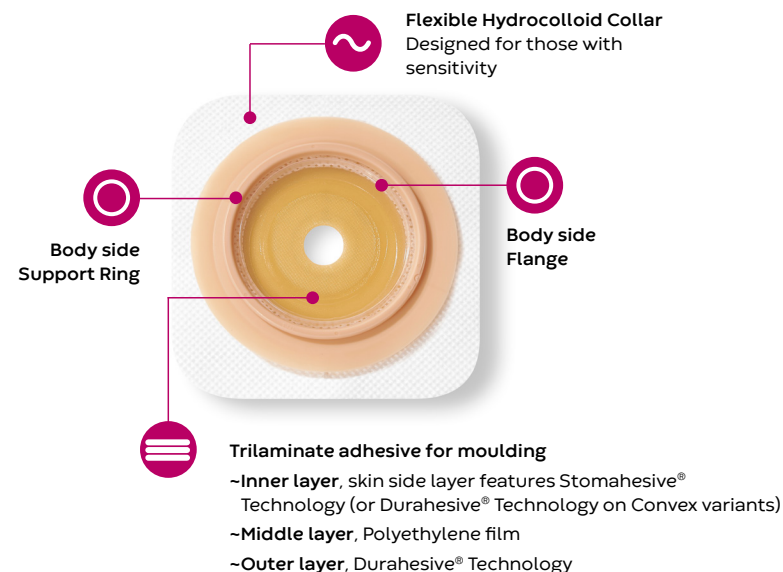

Available in: Flexible | Firm | White | Tan

FLAT BASEPLATES

Natura® Mouldable Technology™ baseplate combined with our Natura®+ pouches are simple to use with the help of the audible click and physical 'snap' to confirm the pouch is firmly attached. Convatec Mouldable Technology™ baseplate with Rebounding Memory Technology™ creates an elastic-like seal that rebounds to fit most shapes and sizes, and then "turtlenecks" upward, to enhance the seal and protect the skin.

NATURA® Mouldable baseplate

Available in: Flat | Accordion | Convex

ESTEEM SYNERGY® baseplate
Two-piece Adhesive Coupling Technology™

Our Esteem Synergy® baseplates were designed to give people the security to stay in control of their stomas every day so people can live life on their terms.

Available in: Cut-to-Fit | Pre-cut | Flat | Convex | White | Tan

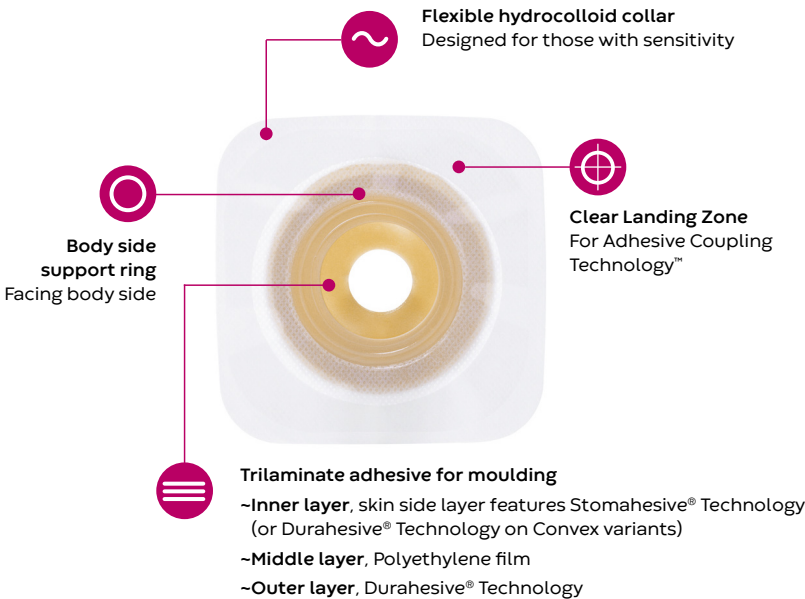

When ordering an Esteem Synergy® Two-Piece Solution, make sure you select the same coupling size for the baseplate and pouch. Use the coloured dots in the table to help.

Colour				
Flange Size	35mm	48mm	61mm	89mm

ESTEEM Synergy®
Mouldable baseplate

Mouldable Esteem Synergy® baseplates combined with Esteem Synergy®+ pouches are simple to use, helping people to feel in control of their stoma so they can get on with the important things in life.

Convatec Mouldable Technology™ baseplate with Rebounding Memory Technology™ creates an elastic-like seal that rebounds to fit most shapes and sizes, and then “turtlenecks” upward, to enhance the seal and protect the skin.

Available in: Flat | Convex

The Esteem Synergy® baseplates have Stomahesive®, Durahesive® and Mouldable hydrocolloid technology.

ESTEEM SYNERGY® BASEPLATES

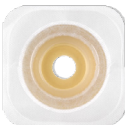

ESTEEM SYNERGY® FLEXIBLE HYDROCOLLOID COLLAR
