There is a Need for Ongoing Patient Support

Most common ostomy self-care challenges are related to leakage, skin issues, frequency of changes and difficulty caring for an ostomy¹

Following an interaction with a **me+™ WOC nurse:**

98%

of survey respondents said they would recommend this service²

97%

of those surveyed had a better understanding of how to care for their ostomy after a me+™ virtual visit (telehealth)³

88%

of those surveyed said they avoided an additional visit to a healthcare facility²

THE me+™ PROGRAM SUPPORTS PATIENTS

The me+™ program is a comprehensive support program designed to support clinical care by providing patients with support, inspiration, insights and ideas throughout their entire ostomy journey.

me+™ program members can:

- ✓ Request free ostomy samples
- ✓ Speak to a WOC nurse or product specialist
- ✓ Receive complimentary virtual telehealth support
- ✓ Access online resources, education and guided recovery tools
- ✓ Connect to our Language Line Services, which offers translation support in over 240 foreign languages and dialects - at bedside or home

Health Care Professionals

TO ENROLL YOUR PATIENTS in the me+™ program
call us at 877-585-0470 or
email concierge@Convatec.com

LEARN HOW our me+™ program can provide the right ostomy support for your patient

Our goal is to **partner with you and your patients to deliver best-in-class care** throughout the patient journey:

- ✓ **Pre-Surgery / Surgery**
 - Access online resources at mepluscare.com
 - Request me+™ patient Starter Kit and education materials
 - Enroll in me+ program
 - Learn about the me+ recovery series, developed to aid rehabilitation after surgery
- ✓ **Weeks Immediately After Surgery**
 - Consult with me+ WOC nurses and product specialists
 - Personalized Starter Kit
 - me+ welcome email and support
 - me+ recovery phase 1 exercise booklet*
- ✓ **First Year & Beyond**
 - Explore online resources and tools
 - Get inspired by the me+ community
 - Sample new products
 - Continue me+ recovery series exercises*

Throughout their journey, your patients can call 1-800-422-8811 for live support from me+™ WOC nurses and product specialists

A me+™ Concierge team member can assist Healthcare professionals with:

- ✓ Personalized support
- ✓ Enrolling your patients into the me+™ program
- ✓ Providing a me+ Starter Kit and free product samples for your patients

TO LEARN MORE contact your me+ concierge directly at 877-585-0470

*The information in the series is not intended to provide medical advice. Patients and users should speak with their health care professional before engaging in physical activity following ostomy surgery. In the event they experience pain or discomfort, they should stop the activity immediately and contact their health care professional.

me+™ offers virtual telehealth nationwide

The me+™ program is the first of its kind to offer Telehealth in all 50 states. Our complimentary virtual telehealth services provides visual support and live demonstrations through our telehealth partner, Corstrata™.

Interested in learning more about the me+™ virtual support option?

WATCH THE VIDEO

or call us today at 1-800-422-8811 to see if a telehealth consultation is right for your patient.

"It's truly allowed me to have a more positive outlook, which was certainly suffering before the visit."

- Michael, me+™ member and telehealth user

me+™ virtual support is not intended to be a substitute for professional medical advice, diagnosis, or treatment. Always seek the advice of your physician or other qualified health provider with any questions you may have regarding a medical condition.

Telehealth visits will be managed through Convatec partner, Corstrata™. Only visits scheduled through a Convatec referral are complimentary.

You Can Feel Confident Recommending me+™ Virtual Support Because It Is:

- ✓ Provided by Board-Certified Ostomy Nurses
- ✓ Available in all 50 states
- ✓ HIPAA Compliant, Private & Secure
- ✓ Available in English and Spanish

An Introduction to OSTOMY CARE

There are 3 primary types of ostomy surgeries. Understanding the fundamental difference is important to select the right product and provide the right support.

COLOSTOMY (large intestine)

A colostomy is a surgical procedure that creates an opening on the abdomen through which the large intestine is redirected to bypass diseased or damaged parts of the large intestine. The large intestine is brought to the surface of the skin, and stitched to the abdomen to form a new exit for the stool from the bowel.

Things to know about a Colostomy

- ✓ Primarily formed due to colon or rectal cancer or trauma
- ✓ Can be temporary or permanent
- ✓ Stool tends to be semi-formed to formed and predictable 1-2 times per day

ILEOSTOMY (small intestine)

An ileostomy is a surgical procedure that creates an opening on the abdomen through which the end of your small intestine is redirected to bypass diseased or damaged parts of the digestive system. The small intestine is brought to the surface of the skin, and stitched to your abdomen to form a new exit for waste from your bowels.

Things to know about an Ileostomy

- ✓ Primarily formed due to inflammatory bowel disease (Crohn's, Ulcerative Colitis)
- ✓ Can be temporary or permanent
- ✓ Stool is liquid or pasty and constant throughout the day
- ✓ The small intestine contains digestive enzymes and acids, and the output may cause skin irritation if it comes in contact with the skin

UROSTOMY (urinary tract)

A urostomy is a surgical procedure that creates an opening on the abdomen through which urine is redirected away from a bladder that is damaged or diseased. After the bladder is removed, a piece of small intestine (ileum) is separated from the rest of the bowel. This piece is used as a conduit for urine to pass out of the body. The ureters are attached to this new passageway and one end is brought up to an opening made on your abdomen.

Things to know about a Urostomy

- ✓ Primarily formed due to cancer or inflammation of the bladder
- ✓ Is always permanent
- ✓ Urine flows through the stoma as it is produced which means output is constant
- ✓ Urine may cause skin irritation if it comes in contact with the skin

Choosing the Right OSTOMY SYSTEM

The ostomy pouch collects stoma output. The pouch comes as part of a two-piece or one-piece system.

2 PIECE SYSTEM

The two-piece system includes a skin barrier and a separate pouch that securely join together. This option allows the pouch to be removed to empty or change, without removing the skin barrier as frequently.

Designed for patients

- ✓ who want to change their pouch more frequently than their skin barrier
- ✓ with an ileostomy who need to empty/change the pouch frequently
- ✓ who exercise, travel and play sports

1 PIECE SYSTEM

The skin barrier and pouch are provided as an integrated solution that cannot be separated. It offers one simple and convenient step to attach or remove, providing a fresh start every time. This option is thin and flexible, and designed for more frequent system changes.

Designed for patients

- ✓ post-operatively - removes any added pressure on the abdomen caused when connecting a skin barrier and pouch
- ✓ who prefer to change their ostomy system frequently
- ✓ who prefer a flexible and low profile ostomy system

A Guide to ADHESIVES

The adhesive is an important component of the skin barrier. Our product portfolio features a range of adhesive technologies to enable you to select an appropriate solution that meets the needs of your patients.

STOMAHESIVE® (standard wear)

Designed for people with mostly solid output, our unique Stomahesive® technology is a hydrocolloid adhesive that gently adheres to the skin, protecting it from the damaging effects of stoma effluent. We also offer a Modified Stomahesive® option, which features a touch of mineral oil that makes the barrier more flexible during wear, and removal easier on the skin.

Designed for patients

- ✓ with semi-formed/formed output
- ✓ who have sensitive skin
- ✓ with frequent changes
- ✓ who prefer a standard weartime

DURAHESIVE® (extended wear)

Designed for people with mostly liquid output, our unique Durahesive® technology is a hydrocolloid adhesive that swells up upon hydration to protect the stoma. This special effect called turtlenecking, helps create a more secure seal without harming the skin. We also offer Durahesive® Plus, which features an enhanced tack, strength and cohesion designed for extended weartime or aggressive output.

Designed for patients

- ✓ with semi-liquid/liquid output, including urine
- ✓ who want or need longer weartime

ESTEEM™+ *Soft & Flex* CONVEX

Adhesive designed with a high initial tack, to aid in the initial attachment to the skin. The hydrocolloid barrier features a thin tapered edge to help prevent the edge catching on clothing, and a thicker center to help absorption around the stoma.⁴

Designed for patients

- ✓ with both solid and liquid output
- ✓ who prefer a standard weartime

TAPE COLLARS
are available in two forms:

Acrylic: Tape collar designed with good tack
Hydrocolloid: Designed for those with sensitivity to other tape collars

A Guide to ADHESIVES

ABOUT OUR ADHESIVES

Convatec’s proprietary adhesives are integral in all of our ostomy skin barriers. Our hydrocolloid adhesives are designed for use in high-moisture environments and have decades of proven product performance.

The two charts below will help determine which adhesive may be best for your patient.

Adhesives Feature Guide

Our formulations are based on:

- Over four decades of proven and trusted ostomy solutions
- Leading adhesive technology, formulated after 15 years of research and with over 400 formulations
- Unmatched support designed to dramatically improve life with an ostomy

Adhesives Selection Guide

Adhesive Type	Formed Stool	Semi-Formed Stool	Semi-Liquid Stool	Liquid Stool	Urine	System Type

A Guide to SKIN BARRIERS

The skin barrier is the piece of the pouching system that sticks to the body. It should fit snugly around the stoma to help prevent leakage and have an opening customized to stoma size and shape.

MOLDABLE

Convatec Moldable Technology™ skin barrier with Rebounding Memory Technology™ creates an elastic-like seal that rebounds to fit most shapes and sizes, and then “turtlenecks” upward, to enhance the seal and protect the skin.⁵

Designed for patients

- ✓ who have large, round, oval or irregular shaped stomas
- ✓ with dexterity issues who find cutting challenging

CUT-TO-FIT

Cut-to-Fit barriers can be cut to match the shape and size of individual stomas. Using scissors, one can cut a circle, oval or any shape needed to fit the stoma.

Designed for patients

- ✓ with a stoma size in-between pre-cut sizes
- ✓ with an irregular stoma shape

PRE-CUT

Pre-cut barriers have a uniform, circular stoma hole and are ready to apply right out of the box. They are available for the most common stoma sizes.

Designed for patients

- ✓ with an evenly round stoma that fits the available pre-cut size
- ✓ with dexterity issues who find cutting challenging

ACCORDION

Skin Barriers

The Accordion Flange is an option on a range of Natura® skin barriers. The accordion flange lifts to provide generous finger room so coupling is easy and comfortable.

PRODUCT FEATURES

- 2x the lifting height of another lifting flange on the market?
- Simple to measure and cut or mold
- Range of flat, convex, Cut-to-Fit and Moldable options
- Compatible with SUR-FIT® Natura™ and Natura™+ pouch option

HOW IT WORKS

- Designed to help minimize abdominal pressure and pain when attaching the pouch.
- Connects with an audible 'click' and physical 'snap' to confirm the pouch is firmly attached.

Designed for patients

- ✓ with dexterity issues as it provides finger room so coupling is easy and comfortable
- ✓ designed to prevent pressure or trauma if abdominal tenderness is present due to post-operative stoma surgery/incisions

Lift 'UP' flange to easily attach the pouch away from the body

Low profile in the 'DOWN' position so it's not visible under clothing

The Purpose of CONVEXITY

WHAT IS CONVEXITY?

All bodies are different. Convex wafers are designed to help manage irregular stomas and abdomens to help reduce leakage and simplify stoma management.

- Convexity is the outward curving of the baseplate or skin barrier.^{10,11}
- Convexity applies a uniform pressure to the immediate peristomal skin, improving the projection of the stoma for drainage.¹²
- Convexity helps maintain a secure seal between the pouch and the skin.¹³

GROWING CONVEXITY NEED

Data shows the need for convex skin barriers growing year on year.¹⁴ This is due to a number of factors including:

- Changing surgical techniques/outcomes of stoma shape & profile
- Increased obesity rates

WHEN TO USE CONVEXITY

Flush Stomas

Located at the same level as the abdomen skin surface, and does not protrude¹⁵

Retracted Stomas

Stoma pulled into the abdomen below skin level or having little or no spout¹⁶

Skin Folds

A stoma which is deep in a skin fold/crease¹³

Soft or Flaccid Abdomens

An abdomen requiring firm level of support to stabilize the pouching system¹⁵

The Characteristics of CONVEXITY

RIGIDITY

Firm/Rigid Convexity

Typically used on soft or flaccid abdomens.

Soft Convexity

Typically used on firm or toned abdomens.

DEPTH

Height of the convex plateau.

✓ Deep

✓ Shallow

PLATEAU WIDTH

Distance across the raised flat surface from edge-to-edge

Why Tension Location Matters

Successful convexity must press down on the peristomal skin enough to make a good seal around the base of the stoma and help with protrusion.¹⁴

- ✓ **Convexity Pressure:** A narrow plateau width may be used to create pressure directly around the stoma with lesser pressure as the plateau width gets wider.
- ✓ **Plateau Width:** A wider plateau width may be used to flatten out skin creases away from the stoma.

Plateau Width Guidance for Esteem™ + Flex and Soft Convex

Choosing the right convexity solution for different body profiles can be challenging. Please feel free to consult with one of our me+™ Specialists or WOC Nurses for further guidance.

Ostomy Pouch OPTIONS

Convatec offers a wide range of pouching options across both 2 Piece and 1 Piece Systems.

CLOSED

A closed pouch doesn't require draining. Once they are full, you simply remove and replace with a new pouch.

Additionally, ideal during physical activity, intimate moments, swimming, and travel.

Designed for patients

- ✓ who have thick, formed stool that is predictable (1-2 times per day)

DRAINABLE

Drainable pouches allow you to drain the output periodically throughout the day so that you do not have to change pouches as frequently.

Designed for patients

- ✓ who have loose, liquid stool or semi-formed stool that can be unpredictable or constant throughout the day

UROSTOMY

A Urostomy pouch has a faucet tap, soft tap, or fold over tap at the bottom that allows for draining urine as frequently as needed.

Designed for patients

- ✓ with a Urostomy

Common POUCH FEATURES

POUCH COLOR

Transparent (Clear front of pouch)

Clear pouch front for easy output assessment and determining when a pouch needs to be changed or emptied. Soft and quiet material on the body side of the pouch.

Opaque (Tan-colored pouch)

Soft and quiet material cover both the front and the body side of the pouch for more discretion and comfort.

Easy-View Window

Some options come with an easy-view window for accurate positioning and observation.

FILTER OR NO FILTER

Filters help release and deodorize gas and keep the closed or drainable pouch flat. Note that the filter must be covered with a filter cover while swimming, bathing or showering.

DRAINABLE POUCH CLOSURE

InvisiClose™ Clipless Tail Closure

Self closing drainable pouch closure which provides an easy closure option that does not require a separate clip for added security.

Lock-it Pocket™

Folds inside out to hide away the secured drainage tail—providing the flexibility of a drainable pouch, with the feel and comfort of a closed-end pouch.

Traditional drainable pouches are closed with a separate clip.

UROSTOMY POUCH DRAINAGE

The Accuseal™ Tap with valve is a faucet type tap designed for easy manipulation and emptying. Other drainage options include a Soft Tap or Fold Over Tap.

All Urostomy pouches include an anti-reflux valve which is designed to help prevent backflow.

TWO-PIECE

Systems

NATURA™ 

The Natura™ brand (inclusive of Natura™, Sur-Fit Natura™, and Natura™+) is an extensive range of skin barriers and pouches that connect together with a plastic ring called a flange in a simple snap-off, snap-on design.

Two-piece systems include a **skin barrier and a separate pouch** that securely join together. There are two brands that make up Convatec's Two-Piece Ostomy Systems: Natura™+ and Esteem Synergy®+.

ESTEEM SYNERGY® 

The Esteem Synergy®+ brand are skin barriers and pouches that connect together with Adhesive Coupling Technology™. This is a flat, flexible adhesive foam ring on the pouch that sticks to a flat 'landing zone' on the skin barrier.

Color Key & Sizing Guide

COLOR MATCH						
FLANGE SIZE	1 1/4" (32mm)	1 1/2" (38mm)	1 3/4" (45mm)	2 1/4" (57mm)	2 3/4" (70mm)	4" (100mm)

Color Key & Sizing Guide

COLOR MATCH			
COUPLING SIZE	Small Stoma Opening	Medium Stoma Opening	Large Stoma Opening

 When ordering a Two-Piece System, **make sure you select the same flange/coupling size for the skin barrier and pouch.** Use the colored dots in the table to help.

TWO BRANDS
make up Convatec's
ONE-Piece Ostomy Systems

Esteem™ +
Pouches

Active Life®
Pouches

ESTEEM™

The Esteem™ + brand is an all-in-one solution combining the skin barrier and pouch in a single unit. Designed to be easy and convenient, it's one simple step to attach or remove. Available in multiple adhesive options, growing convexity options, and with Convatec's latest pouch technologies.

ActiveLife®

Active Life® is a legacy one-piece system brand that also combines the skin barrier and pouch in a single unit.

ACUTE KITS

Convatec's Acute Kits provide simple post-operative solutions designed to get your patient into the right system after surgery.

All of Convatec's Kits include NATURA™ Skin Barriers and NATURA™ Pouches and feature Durahesive® to provide initial tack, strong adhesion and extended wear time.

Systems include Cut-to-Fit and Moldable barrier options, as well as flat and low-pressure Accordion flanges.

PEDIATRIC

Products

Little Ones® is a pediatric Two-piece and One-piece system designed for babies smaller than 10 lbs, and children over 10 lbs.

The pouches have soft-welded edges and smaller pouch sizes designed to provide extra comfort for little ones.

Color Key & Sizing Guide

COLOR MATCH				
FLANGE/ COUPLING SIZE	0 - 9/10" (0-23mm)	1/5 - 1 1/4" (4.8-31mm)	1 1/4" (32mm)*	1 3/4" (45mm)*

*Indicates Flange size measurement

When ordering a Pediatric Two-Piece System, **make sure you select the same flange/ coupling size for the skin barrier and pouch.** Use the colored dots in the table to help.

Pouching Support

Products that help create the best fit around the stoma, prevent leakage and help level out the application surface area for better pouch performance.

EAKIN COHESIVE®

Seals

- Moldable ring that helps seal the area around hard-to-fit stomas from any leakage under the skin barrier
- Acts as a filler on uneven skin surfaces to help create a flatter area for the skin barrier to adhere to
- Designed to absorb moisture and prevent it coming in contact with, and causing harm to the skin—forms a gel that protects the skin

HCPCS A4385

Size	Product Code	Depth	Box of
Small 2"	839002	4.2 mm	20
Slims 2"	839005	3 mm	10
Large 4"	839001	2.1 mm	10
StomaWrap 3 1/3"	839006	3 mm	10

WATCH NOW

to learn more about
eakin Cohesive® Seals

STOMAHESIVE®

Paste

- Helps to protect exposed skin between the base of the stoma and the opening of the skin barrier. Can also be used to fill crevices, skin folds and scars to help create a flat pouching surface for optimal appliance attachment
- Helps to prevent leakage under the skin barrier that may result in skin breakdown
- Pectin-based
- Contains alcohol

HCPCS A4406

Size	Product Code	Box of
2 oz.	183910	1 tube

EAKIN COHESIVE®

Paste

- Use to fill crevices, skin folds and scars to help create an even pouching surface
- Leakage prevention by helping form a waterproof barrier around the stoma
- Alcohol free

HCPCS A4405

Size	Product Code	Box of
2.1 oz.	839010	1 tube

EAKIN COHESIVE®

Skin Barrier

- Designed to help protect the skin from contact with body fluids
- Acts as a filler on uneven skin surfaces to help create a flat pouching surface for optimal appliance attachment
- Moldable and moisture absorbing

HCPCS A4385

Size	Product Code	Box of
4 x 4"	839004	5
4 x 8"	839003	5

STOMAHESIVE®

Strips

- Helps to create a secure seal between the stoma and the appliance, to protect the skin against stoma output
- Can be cut, torn and shaped into a variety of shapes to help prevent leakage around the stoma by acting as a filler
- Designed to absorb moisture from the stoma, helping to create a snug fit around the stoma.

HCPCS A4362

Size	Product Code	Box of
3 cards of 5 strips each	025542	15 strips

SUR-FIT® NATURA™

Disposable Convex Inserts

- Convex inserts that can be added to a flat skin barrier to create a shallow convexity—insert into the inner diameter of the plastic flange on the pouch facing side of a SUR-FIT® Natura™ Durahesive® and Stomahesive® skin barrier
- Select an insert that is at least $\frac{1}{4}$ " larger than the maximum diameter of the stoma
- For SUR-FIT® Natura™ skin barriers only. Not for use with Convatec Moldable Technology™ skin barriers, or any other product
- Quantity = 5

A4331	Extension Drainage Tube	1 per 6 months
A4361	Ostomy Faceplate	3 per 6 months
A4362	Skin Barrier, Solid, 4x4 or Equivalent	20 per month
A4363	Ostomy Clamp, Any Type, Replacement Only	As needed
A4367	Ostomy Belt	1 per month
A4369	Ostomy Skin Barrier Liquid (spray or brush)	2 oz per month
A4371	Ostomy Skin Barrier Powder	10 oz per 6 months
A4385	Skin Barrier, Solid 4x4 or Equivalent, Extended Wear	As needed
A4388	Pouch, Drainable, w/Extended Wear Barrier Attached	As needed
A4389	Ostomy Pouch, Drainable, w/ Barrier Attached, w/ Built-In Convexity, w/ Filter (1-piece)	20 per month
A4390	Pouch, Drainable, w/Extended Wear Barrier, Attached, w/convexity	As needed
A4392	Ostomy Pouch, Urinary, w/ Barrier Attached, w/ Built-In Convexity (1-piece)	20 per month
A4393	Ostomy Pouch, Urinary, w/ Extended Wear Barrier Attached, w/ Built-In Convexity (1-piece)	20 per month
A4436	Irrigation Sleeve	4 per month
A4398	Ostomy Irrigation Bag	2 per 6 months
A4399	Ostomy Irrigation Cone/Catheter, and Brush	2 per 6 months
A4402	Lubricant	4 oz per month
A4405	Ostomy Skin Barrier, Non-Pectin Based, Paste	4 oz per month
A4406	Ostomy Skin Barrier, Pectin-Based, Paste	4 oz per month
A4407	Skin Barrier, w/Flange, Extended Wear w/ Convexity	As needed
A4409	Skin Barrier, w/Flange, Extended Wear <= 4x4	As needed
A4410	Skin Barrier, w/Flange, Extended Wear > 4x4	As needed
A4413	Pouch, Drainable, High Output, for Barrier w/Flange	As needed
A4414	Skin Barrier, w/Flange, <= 4x4	20 per month
A4415	Skin Barrier, w/Flange, > 4x4	20 per month
A4416	Pouch, closed, w/Barrier Attached, w/Filter	60 per month
A4417	Ostomy Pouch, Closed, w/ Barrier Attached, w/ Built-In Convexity, w/ Filter (1-piece)	60 per month
A4419	Pouch, closed for use on Barrier w/Flange, w/Filter	60 per month
A4421	Ostomy Supply, Miscellaneous	As needed
A4422	Ostomy Absorbent Material (Sheet/Pad/Crystal Packet)	No Fee Schedule
A4424	Ostomy Pouch, Drainable, w/ Barrier Attached, w/ Filter (1-piece)	20 per month
A4425	Pouch, Drainable, with filter for use w/Flange	20 per month
A4428	Pouch, Urinary, w/ Extended Wear Barrier w/Faucet-type Tap	As needed
A4432	Pouch, Urinary, for use on Barrier w/Flange, w/Faucet-type Tap	20 per month
A4455	Adhesive Remover or Solvent	2 oz per month
A4456	Adhesive Remover Wipes, Any Type	50 per month
A5054	Pouch Closed, for Barrier w/Flange	60 per month
A5055	Stoma Cap, each	31 per month
A5056	Pouch, Drainable, w/Extended Wear Barrier Attached, w/filter	20 per month
A5057	Pouch, Drainable, w/Extended Wear Barrier, w/convexity, w/filter	20 per month
A5061	Pouch, Drainable, w/Barrier Attached	20 per month
A5063	Pouch, Drainable, for use w/Flange	20 per month
A5071	Pouch, Urinary, w/Barrier Attached	20 per month
A5073	Pouch, Urinary, for Barrier w/Flange	20 per month
A5093	Ostomy Accessory, Convex Insert	10 per month
A5102	Bedside Drainage Bottle w/ or wo/ tubing, rigid or expandable	2 per 6 months
A5120	Skin Barrier, Wipes, each	150 per 6 months
A5122	Skin Barrier, Solid, 8 X 8 or Equivalent	20 per month
A6154	Wound Pouch	As needed

Disclaimer:

The reimbursement information provided by Convatec is intended to provide general information relevant to coding and reimbursement of Convatec's products only. Coverage and payment policies for the same insurer can vary from one region to another and may change from time to time because of ongoing changes in government and insurance industry rules and regulations. Therefore, please confirm HCPCS codes with your local DME-MAC, private insurer, or Medicaid agency before processing claims. Convatec does not guarantee coverage or payment of its products listed herein.
